Stazione Sperimentale per i Combustibili (SSC), SETARAM and HEL, organize the free workshop:

# Calorimetric Techniques in Process Hazard Assessment

which will be held on 5th May at SSC in San Donato Milanese, V.le A. De Gasperi, 3.

The FREE Seminar is designed to help scientists understand the applications of calorimetry and kinetics in the screening and determination of chemical reaction hazards. This one day seminar will be given by a team of independent experts from Europe with decades of combined experience at the leading edge of this field.
